

## 教學目的：

1. 基於驗證要求，請先設定手機號碼在馬來西亞域名註冊局介面。
2. 使用【買網址的 DNS 代管】或【自管 DNS 異動】，.my 域名需要由註冊人登入異動 DNS (nameserver)。

## STEP 1

1. 請連結至 <https://selfcare.ichoose.my/> 並登入 .MY 註冊局的域名 技術管理帳號 及 密碼  
若不知如何登入，請先瀏覽 > > 登入教學 [http://myname.pchomebiz.com.tw/form/my\\_domain\\_official\\_login.pdf](http://myname.pchomebiz.com.tw/form/my_domain_official_login.pdf)
2. 登入註冊局介面後，進入 My Account 分類下的「Security」頁面，按下藍色〔+Add 2FA Mobile No.〕鈕  
這個動作是設定手機號碼，目的是為了在異動設定後需要做驗證

ICHOOSE

Home > My Account > Security

Security Manage your 2FA mobile number.

SELF CARE needs Two-Factor Authentication (2FA) mobile number to authenticate certain Domain Name Server (DNS) changes and several settings.  
Maximum of 6 mobile numbers are allowed to be registered at one time.

+ Add 2FA Mobile No.

Country Code	Mobile No.	Created at	Action
No data available in table			

No entries found

## STEP 2

填入您的手機號碼，國家選擇 Taiwan，手機號碼去除第一碼 0

The screenshot shows the PChome website's 'My Account' > 'Security' page. A modal dialog titled 'Add 2FA Mobile Number' is displayed. The dialog has a blue header with the title and a sub-header 'Register your new mobile number for Two-Factor Authentication (2FA)'. The main content area is titled 'Step 1 of 2' and 'Fill in the details below'. It features a 'Mobile No.' input field with a dropdown menu showing '+886' (Taiwan). Below the input field is a checkbox labeled 'Default (Primary mobile no. to receive TAC)' which is checked. There are 'Cancel' and 'Next' buttons at the bottom of the dialog. The background shows the website's navigation menu and a table with the message 'No data available in table'.

#### STEP 4

.MY註冊局將會發送一組TAC 號碼至您填寫的手機簡訊，請按下〔Submit〕鈕

authentication (2FA) mobile number to authenticate certain Domain Name Server (DNS) changes and several settings.  
rs are allowed to be registered at one time.

Country Code		Created at
		ple

For enhanced security, you will receive TAC number via SMS to your registered 2FA mobile number.

8869

Important notes: The SMS TAC is only required once per session. It will expire when you logout.

### STEP 5

靜待一兩分鐘，收到簡訊後請填入網頁欄位，再按下〔CONTINUE〕完成手機號碼的設定

The image shows a web interface for myNIC. At the top is the myNIC logo. Below it, a message states: "To proceed with the transaction, a Transaction Authorization Code (TAC) has been sent to your registered mobile phone (88695 [redacted]). Enter it below and then click 'Continue'. Please leave the dialog box open on this page while waiting for the TAC". Below this message is a text input field with the placeholder text "Enter TAC received via SMS". To the left of the input field are two links: "Resend TAC" and "Need help?". To the right of the input field are two buttons: "CANCEL" and "CONTINUE".

myNIC

To proceed with the transaction, a Transaction Authorization Code (TAC) has been sent to your registered mobile phone (88695 [redacted]). Enter it below and then click "Continue". Please leave the dialog box open on this page while waiting for the TAC

Enter TAC received via SMS

[Resend TAC](#)  
[Need help?](#)

CANCEL CONTINUE

## STEP 6

請進入 Domain 分類，瀏覽自己的域名，按下右側藍色〔MANAGE〕鈕

ICHOOSE

[User].com.my	Molek Abadi Sdn Bhd	05-Jun-2019	05-Jun-2020	Active	MANAGE

Showing 1 to 1 of 1 records

## STEP 7

點選 Nameserver，分次修改DNS，請點選藍色編輯小圖

The screenshot shows the PChome Domain Manager interface. On the left is a sidebar with a user profile and navigation links: "Domain", "Brand & Communication", "Renewals & Payment", and "My Account". The main content area is titled "Domain Manager" with the subtitle "Manage your nameserver". A breadcrumb trail shows "Home > Domain > Domain Manager". A dropdown menu displays "umadeshop.com.my". Below this are two tabs: "Contact Information" and "Nameserver", with the latter being selected. The domain name "umadeshop.com.my" is displayed prominently. To the right of the domain name is a yellow "+ ADD" button. Below the domain name, there are two cards for "NAMESERVER 1" and "NAMESERVER 2". Each card contains the following information: "Nameserver : pdns1.pchome.com.t" (for NS1) or "pdns2.pchome.com.t" (for NS2), "IPv4 : Not Available", and "IPv6 : Not Available". A blue circular edit icon is located to the right of each card's header, and these two icons are highlighted with red rectangular boxes.

Home > Domain > Domain Manager

Domain Manager Manage your nameserver

umadeshop.com.my

Contact Information Nameserver

+ ADD

NAMESERVER 1	NAMESERVER 2
Nameserver : pdns1.pchome.com.t	Nameserver : pdns2.pchome.com.t
IPv4 : Not Available	IPv4 : Not Available
IPv6 : Not Available	IPv6 : Not Available

### STEP 8

不管原本是      pdns1.pchome.com.tw / pdns2.pchome.com.tw  
或                      pdns101.pchome.com.tw / pdns102.pchome.com.tw

若要使用 PChome 買網址的 DNS 代管服務，請分別填入新的 ns1.cyberdns.tw 及 ns2.cyberdns.tw  
若是自行管理 DNS，則一樣分別填入自己的 nameserver 資料。

**Modify Nameserver**

By having more nameservers for your domain, it increases the availability and resiliency of your services. For every domains, you are allowed to enter up to six (6) nameservers.

**STEP 1**  
Enter your desired nameserver below.

Nameserver

ns1.cyberdns.tw

CANCEL NEXT

### STEP 9

當修改成功後，會顯示為新的 ns1.cyberdns.tw 及 ns2.cyberdns.tw  
請按下綠色〔SAVE〕按鈕，儲存完畢後綠色鈕會消失  
新的DNS就異動完成了！

Domain Manager Manage your nameserver
